

# PUREZONE – P300

Electronic De-odourizer & Sterilizer

***Eliminate problem odours, stale air & indoor air pollution..... without the use of Chemicals***

OZONE or "Activated Oxygen" is Nature's air purifier created by lightning. **PUREZONE** electronically recreates this cleansing power within any indoor environment and contaminants are removed from the air by *oxidation*. Apart from being an excellent **deodorant**, ozone is also a powerful **disinfectant**. **And all this without leaving any harmful residues or the use of any chemicals.**

It is also used in packaging of food items as a sterilising agent and for Hand sanitizing.

This handy portable unit employing 'cold plasma' technology has a blower to disperse the Ozone. It comes with a built-in timer to switch off the unit automatically after the set time.

THE APPLICATIONS ARE ENDLESS.....

Homes Offices Apartments Kitchens Toilets Food & Pharmaceuticals  
Hospitals & Nursing Homes Veterinary Clinics Day Care Centers Hotel Rooms  
Restaurants Bars & Pubs Conference Rooms Chemical Environments  
Laboratories Paintshops Beauty Parlors Fire restoration .....in  
short, any place where there is a problem of odours or air pollution.
