Bipolar Plasma Air Sanitizers

Have you noticed how clean and fresh the air feels after a thunderstorm?

That's because lightning energises the air by **IONIZATION**. In nature, **IONS** are generated by sunlight, lightning, ocean waves, and waterfalls. Ionaire re-creates this indoors, leaving the air clean, fresh and free of pathogens.

Product Range

Features

- Latest **BIPOLAR** Technology - Superior to conventional air-purifiers & Negative ion generators
- Built-in Polyester **FILTER** (in some models)
- Removes **STATIC ELECTRICITY** thus preventing dust and grime from sticking to objects and clothing
- Safe for **CONTINUOUS** use in human occupied areas, unlike ozone generating devices
- **ENERGY SAVING** in air-conditioned areas due to substantial reduction in need of outside air
- Produce no harmful byproducts such as **OZONE**, titanium dioxide, or ultraviolet light

Application areas

Any Indoor space - Home, Office, Clinic, Hospital, Restaurant, Commercial & Industrial spaces, school, lab, etc
